David M. Thurston,		
Jesse S. Allard,		

Report of Superintending School Committee.

Citizens of the Town of Eaton :

In presenting to you a report of the schools in town for the year ending March 1, 1884, I have thought it best to make it as concise as possible ; for this purpose I have prepared a table showing the number of terms of school in each district, by whom taught, length of school, number of scholars attending. a list of Prudential Committees &c.

Text Books.

We have a uniformity of text book throughout the town.

Cutter's Physiology and Hygiene Human and Comparative was adopted last Spring ; but owing to a new amendment passed at the last session of the legislature relating to text books (which takes effect March 1.) which provides that teachers shall be examined in physiology with special reference to the effect of alcoholic drinks and narcotics upon the system, and such shall be prescribed in the schools of the town, the books already used not treating of the subject fully, it will therefore be necessary to make an early introduction of books treating of this subject, into schools that are sufficiently advanced.

Teachers.

The teachers employed in our schools for the past year. have, with a few exceptions, been teachers of experience.

Miss Rose E. Ham taught for the first time ; she had good success and promises to become a very successful teacher.

Miss Sarah M. Perkins taught her first and second term in Dis. No. 7 ; she made good advancement and gained the esteem of her pupils.

Miss Susie E. Brooks did herself credit in No. 10 Dis. school.

Birt. E. Eldridge taught Summer term Dis. No. 5 ; he made some advancement but was not as successful as the majority of our teachers.

Mr. Elmer Smart taught for the first time in this town; Mr. Smart is a teacher of experience, being thorough and practical.

All the other teachers have taught in town before and are well known as successful teachers. I would recommend that agents hire only the best of teachers, as this practice would be the surest way to improve our school system.

Very thorough work has been done in all of our schools; and I have instructed teachers to make their work thorough, and have tried to explain the need of thoroughness in all branches, when visiting the schools, as the surest and fastest way to knowledge.

Respectfully submitted,

Eugene W. Hatch,

Superintending School Committee.

Eaton, Feb. 21, 1884.
